Oddities in the News

Scientist Discovers Why We Cold Feet! But Can't Cure 'Em.
Prof. Walter Dill Scott of Northwestern University at Chicago has discovered that we have cold feet because of displeasure or fear.
Either lack of courage or being displeased, he says, causes the blood to run into the larger vessels and leave the smaller ones and surface of the body, particularly the feet.
"He has cold feet," the professor thinks an apt expression, as when one is afraid, his feet are really cold.

Pupils Go on Strike When Their Teacher Is Dismissed.
When John H. Bailey Jr., principal of the Byfield (R. I.) school, was dismissed for participating in politics, he went to the school just the same and was ousted by the superintendent.
The children cheered as he left, and quickly organizing a strike all of them, girls and boys, except fifteen, left with him.

On \$5,000 Wager Will Try to Run Auto Backward to New York.
E. W. Dennis of New York has bet J. H. Lehman and J. H. Nixon of Winston-Salem, N. C., \$5,000 that they can't run an automobile backward from Winston-Salem to New York.
They will start April 1, and while there is no time limit they expect to make the trip in fifteen days.

Single to the Jury and Wins Way Out of Jail.
James Lake was indicted at Richmond, Ky., for disturbing public worship by too loud singing, and none of the witnesses appearing the judge ordered the prisoner to sing to the jury so it could decide for itself.
He took the witness stand, lifted up his voice in "On Jordan's Stormy Bank I Stand," and the jury immediately brought in a verdict of acquittal.

Biggest Steer Weighs 2,500 Pounds and Brings \$500.
What is said to be the largest range steer ever sent to market has been

This Will Stop Your Cough in a Hurry
Save \$2 by Making This Cough Syrup at Home.

This recipe makes a pint of better cough syrup than you could buy ready made for \$2.50. A few doses usually conquer the most obstinate cough—stops even whooping cough quickly. Simple as it is, no better remedy can be had at any price.

Mix one pint of granulated sugar with 25 pints of warm water and stir for 3 minutes. Put 2 1/2 ounces of Pinex (fifty cents' worth) in a pint bottle; then add the Sugar Syrup. It has a pleasant taste and lasts a family a long time. Take a teaspoonful every one, two or three hours.

You can feel this take hold of a cough in a way that means business. Has a good tonic effect, braces up the appetite, and is slightly laxative, too, which is helpful. A handy remedy for hoarseness, croup, bronchitis, asthma and all throat and lung troubles.
The effect of pine on the membranes is well known. Pinex is the most valuable concentrated compound of Norwegian white pine extract, and is rich in gualic acid and all the natural healing pine elements. Other preparations will not work in this formula.

This Pinex and Sugar Syrup recipe has attained great popularity throughout the United States and Canada. It has often been imitated, though never successfully. A guarantee of absolute satisfaction or money promptly refunded goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

How to Keep Sponges Sweet and Springy
Most people find sponges hard to keep clean and free from stinks, and for this reason have discarded them entirely. However, it is easy to keep them clean and sweet 15—in addition to rinsing in clean, warm water after being used—they are boiled once a week in water to which has been added a teaspoonful of Gold Dust washing powder, and then rinsed through several clear, warm waters. Wash-cloths should also be boiled in Gold Dust suds and thoroughly rinsed, sunned and ironed. Those of thin linen crash are more desirable than heavy ones.

Engineer Dies Aboard Ship.
Peter Clark of Newark, N. J., chief engineer of the Ward Line Cuban steamship Yumuri, died of heart disease aboard his ship just outside the harbor yesterday. The Yumuri is bound for Cuban ports.
